Geophysical journal subject index by volume 97

Africa

Upper Proterozoic and Phanerozoic pole positions and potassium–argon (K–Ar) ages from the East Sahara Craton (Saradeth, S., Soffel, H.C., Horn, P., Müller-Sohnius, D., Schult, A.), **97**, 209

APWP

Upper Proterozoic and Phanerozoic pole positions and potassium–argon (K–Ar) ages from the East Sahara Craton (Saradeth, S., Soffel, H.C., Horn, P., Müller-Sohnius, D., Schult, A.), **97**, 209

Archaeomagnetism

Archaeomagnetic evidence for the age and duration of firing of mediaeval hearths from Coffee Yard, York (Zhaoqin, M., Noel, M.), **97**, 357

Attenuation

Comparison of iterative back-projection inversion and generalized inversion without blocks: case studies in attenuation tomography (Ho-Liu, P., Montagner, J.-P., Kanamori, H.), **97**, 19

Audiomagnetotellurics

A high-resolution spectral study of audiomagnetotelluric data and noise interactions (Tzanis, A., Beamish, D.), **97**, 557

Chandler wobble

The effect of mantle inelasticity on tidal gravity: a comparison between the spherical and the elliptical Earth model (Dehant, V., Zschau, J.), **97**, 549

Convection

Topography and geoid undulations caused by small-scale convection beneath continental lithosphere of variable elastic thickness (Marquart, G., Schmeling, H.), **97**, 511

Core-mantle boundary

Confidence set inference with a prior quadratic bound (Backus, G.E.), **97**, 119

Crystallography

A Continuum theory for lattice preferred orientation (Ribe, N.M.), **97**, 199

Deformation

Elasto-gravitational deformation, relative gravity changes and earth dynamics (Hinderer, J., Legros, H.), **97**, 513

Dislocation theory

Aseismic–seismogenic coupling for a long strike–slip fault (Husseini, M.I.), **97**, 391

Earth dynamics

Elasto-gravitational deformation, relative gravity changes and earth dynamics (Hinderer, J., Legros, H.), **97**, 513

Earth tides

Asymptotic behaviour of solutions to Laplace's tidal equations at low frequencies (Molodensky, S.M.), **97**, 459
The effect of mantle inelasticity on tidal gravity: a comparison between the spherical and the elliptical Earth model (Dehant, V., Zschau, J.), **97**, 549

Earthquakes

Use of geostatistics for accurate mapping of earthquake ground motion (Carr, J.R., Glass, C.E.), **97**, 31
A model for internal dynamical processes on Mt Etna (Cosentino, M., Lombardo, G., Privitera, E.), **97**, 367
Aseismic–seismogenic coupling for a long strike–slip fault (Husseini, M.I.), **97**, 391

Earth's rotation

Earth's rotation and solar activity (Mazzarella, A., Palumbo, A.), **97**, 181

Elastic wave theory

Elastic ray-Born l_2-migration/inversion (Beydoun, W.B., Mendes, M.), **97**, 151

Electromagnetic induction

The completion of the c-response function for utilization in exact inversion procedures (Yee, E., Paulson, K.V.), **97**, 41
A high-resolution spectral study of audiomagnetotelluric data and noise interactions (Tzanis, A., Beamish, D.), **97**, 557

Electromagnetic modelling

A generalized representation of the electromagnetic fields in a layered earth (Boerner, D.E., West, G.F.), **97**, 529

Electromagnetism

A generalized representation of the electromagnetic fields in a layered earth (Boerner, D.E., West, G.F.), **97**, 529

Flow imaging

Tomographic reconstruction of 2-D vector fields: application to flow imaging (Norton, S.J.), **97**, 173

Geoid

Effects of isostasy on large-scale geoid signal—I. Geoid anomaly over an earth-like planet (Hofstetter, A., Lister, C.R.B.), **97**, 59
Effects of isostasy on large-scale geoid signal—II. Geoid anomaly over the earth (Hofstetter, A., Lister, C.R.B.), **97**, 75
Topography and geoid undulations caused by small-scale convection beneath continental lithosphere of variable elastic thickness (Marquart, G., Schmeling, H.), **97**, 511

Geomagnetic field

Modelling the Earth's geomagnetic field to high degree and order (Schmitz, D.R., Meyer, J., Cain, J.C.), **97**, 421
Derivation of a geomagnetic model to $n = 63$ (Cain, J.C., Wang, Z., Klurth, C., Schmitz, D.R.), **97**, 431
The geomagnetic spectrum for 1980 and core–crustal separation (Cain, J.C., Wang, Z., Schmitz, D.R., Meyer, J.), **97**, 443

Geomagnetism

Modelling the Earth's geomagnetic field to high degree and order (Schmitz, D.R., Meyer, J., Cain, J.C.), **97**, 421
Derivation of a geomagnetic model to $n = 63$ (Cain, J.C., Wang, Z., Klurth, C., Schmitz, D.R.), **97**, 431
The geomagnetic spectrum for 1980 and core–crustal separation (Cain, J.C., Wang, Z., Schmitz, D.R., Meyer, J.), **97**, 443

Geostatistics

Use of geostatistics for accurate mapping of earthquake ground motion (Carr, J.R., Glass, C.E.), **97**, 31

Geothermics

Crustal structure of the Ischia–Phlegrean geothermal fields, near Naples, Italy, from gravity and aeromagnetic data (Rapolla, A., Fedi, M., Fiume, M.G.), **97**, 409

Goethite

Magnetic properties of natural goethite—I. Grain-size dependence of some low- and high-field related rockmagnetic parameters measured at room temperature (Dekkers, M.J.), **97**, 323
Magnetic properties of natural goethite — II. TRM behaviour during thermal and alternating field demagnetization and low-temperature treatment (Dekkers, M.J.), **97**, 341

Gravity

Basement magnetization estimates by wavenumber domain analysis of magnetic and gravity maps (Muniruzzaman, M., Banks, R.J.), **97**, 103
A comparison of the Moho interpreted from gravity data and from deep seismic reflection data in the northern North Sea (Holliger, K., Klemperer, S.L.), **97**, 247
Crustal structure of the Ischia–Phlegrean geothermal fields, near Naples, Italy, from gravity and aeromagnetic data (Rapolla, A., Fedi, M., Fiume, M.G.), **97**, 409
Elasto-gravitational deformation, relative gravity changes and earth dynamics (Hinderer, J., Legros, H.), **97**, 513

Gravity methods

A contribution to precision microgravity data analysis using Lacoste and Romberg gravity meters (Rymer, H.), **97**, 311

Instrumentation

An instrument for measuring the axial remanent magnetization of long sediment cores (Noel, M., Pickering, M., Molyneux, L.), **97**, 95

Inverse problem

Confidence set inference with a prior quadratic bound (Backus, G.E.), **97**, 119
Elastic ray-Born l_2-migration/inversion (Beydoun, W.B., Mendes, M.), **97**, 151

Inverse theory

A treatment of ill-conditioned systems in expansions of group velocity Raleigh waves (Carbonell, R., Lana, X.), **97**, 51
On the use of conjugate gradient to calculate the eigenvalues and singular values of large, sparse matrices (Scales, J.A.), **97**, 167

Inversion

Inversion of waveforms for extreme source models with an application to the isotropic moment tensor component (Vasco, D.W., Johnson, L.R.), **97**, 1
Comparison of iterative back-projection inversion and generalized inversion without blocks: case studies in attenuation tomography (Ho-Liu, P., Montagner, J.-P., Kanamori, H.), **97**, 19
The completion of the c-response function for utilization in exact inversion procedures (Yee, E., Paulson, K.V.), **97**, 41
Confidence set inference with a prior quadratic bound (Backus, G.E.), **97**, 119

Isostasy

Effects of isostasy on large-scale geoid signal—I. Geoid anomaly over an earth-like planet (Hofstetter, A., Lister, C.R.B.), **97**, 59
Effects of isostasy on large-scale geoid signal—II. Geoid anomaly over the earth (Hofstetter, A., Lister, C.R.B.), **97**, 75

Italy

Crustal structure of the Ischia–Phlegrean geothermal fields, near Naples, Italy, From gravity and aeromagnetic data (Rapolla, A., Fedi, M., Fiume, M.G.), **97**, 409

Magnetic anomalies

Basement magnetization estimates by wavenumber domain analysis of magnetic and gravity maps (Muniruzzaman, M., Banks, R.J.), **97**, 103
Crustal structure of the Ischia–Phlegrean geothermal fields, near Naples, Italy, From gravity and aeromagnetic data (Rapolla, A., Fedi, M., Fiume, M.G.), **97**, 409

Magnetotellurics

The completion of the c-response function for utilization in exact inversion procedures (Yee, E., Paulson, K.V.), **97**, 41

Mantle

The effect of mantle inelasticity on tidal gravity: a comparison between the spherical and the elliptical Earth model (Dehant, V., Zschau, J.), **97**, 549

Microgravity

A contribution to precision microgravity data analysis using Lacoste and Romberg gravity meters (Rymer, H.), **97**, 311

Mt. Etna

A model for internal dynamical processes on Mt Etna (Cosentino, M., Lombardo, G., Privitera, E.), **97**, 367

N. America

Palaeomagnetic results from the Indian Heaven volcanic field, south-central Washington (Mitchell, R.J., Jaeger, D.J., Diehl, J.F., Hammond, P.E.), **97**, 381

North Atlantic

A low-velocity zone within the layer 3 region of 118 Myr old oceanic crust in the western North Atlantic (Mithal, R., Mutter, J.C.), **97**, 275

North Sea

A comparison of the Moho interpreted from gravity data and from deep seismic reflection data in the northern North Sea (Holliger, K., Klemperer, S.L.), **97**, 247

Nova Scotia

Dual-polarity early Carboniferous remagnetization of the Fisset Brook Formation, Cape Breton Island, Nova Scotia (Johnson, R.J.E., Van der Voo, R.), **97**, 259

Ocean model

Asymptotic behaviour of solutions to Laplace's tidal equations at low frequencies (Molodensky, S.M.), **97**, 459

Oceanic crust

A low-velocity zone within the layer 3 region of 118 Myr old oceanic crust in the western North Atlantic (Mithal, R., Mutter, J.C.), **97**, 275

Palaeomagnetic database

The Strasbourg palaeomagnetic database (Westphal, M.), **97**, 361

Palaeomagnetism

An instrument for measuring the axial remanent magnetization of long sediment cores (Noel, M., Pickering, M., Molyneux, L.), **97**, 95

Upper Proterozoic and Phanerozoic pole positions and potassium–argon (K–Ar) ages from the East Sahara Craton (Saradeth, S., Soffel, H.C., Horn, P., Müller-Sohnius, D., Schult, A.), **97**, 209

Dual-polarity early Carboniferous remagnetization of the Fisset Brook Formation, Cape Breton Island, Nova Scotia (Johnson, R.J.E., Van der Voo, R.), **97**, 259

The Strasbourg palaeomagnetic database (Westphal, M.), **97**, 361

Palaeomagnetic results from the Indian Heaven volcanic field, south-central Washington (Mitchell, R.J., Jaeger, D.J., Diehl, J.F., Hammond, P.E.), **97**, 381

Red Sea

Seismicity and tectonics of the Red Sea and western Arabia (El-Isa, Z.H., Al Shanti, A.), **97**, 449

Rock magnetism

Magnetic properties of natural goethite—I. Grain-size dependence of some low- and high-field related rockmagnetic parameters measured at room temperature (Dekkers, M.J.), **97**, 323

Magnetic properties of natural goethite—II. TRM behaviour during thermal and alternating field demagnetization and low-temperature treatment (Dekkers, M.J.), **97**, 341

San Andreas fault

Aseismic–seismogenic coupling for a long strike–slip fault (Husseini, M.I.), **97**, 391

Sea level

Earth's rotation and solar activity (Mazzarella, A., Palumbo, A.), **97**, 181

Seismic data analysis

Real-time event detection, phase indentification and source location estimation using single station three-component seismic data (Roberts, R.G., Christoffersson, A., Cassidy, F.), **97**, 471

Seismic inversion

Two-dimensional seismic refraction tomography (White, D.J.), **97**, 223

Fréhet derivatives for curved interfaces in the ray approximation (Nowack, R.L., Lyslo, J.A.), **97**, 497

Seismic modelling

Lateral resolution in seismic reflection — a physical model study (Pant, D.R., Greenhalgh, S.A.), **97**, 187

Seismic reflection profiling

A comparison of the Moho interpreted from gravity data and from deep seismic reflection data in the northern North Sea (Holliger, K., Klemperer, S.L.), **97**, 247

Seismic resolution

Lateral resolution in seismic reflection — a physical model study (Pant, D.R., Greenhalgh, S.A.), **97**, 187

Seismicity

Seismicity and tectonics of the Red Sea and western Arabia (El-Isa, Z.H., Al Shanti, A.), **97**, 449

Seismology

Inversion of waveforms for extreme source models with an application to the isotropic moment tensor component (Vasco, D.W., Johnson, L.R.), **97**, 1

A low-velocity zone within the layer 3 region of 118 Myr old oceanic crust in the western North Atlantic (Mithal, R., Mutter, J.C.), **97**, 275

Wave propagation in a vertical transversely isotropic medium: field experiment and model study (Kerner, C., Dyer, B., Worthington, M.), **97**, 295

Solar activity

Earth's rotation and solar activity (Mazzarella, A., Palumbo, A.), **97**, 181

Spectral analysis

Basement magnetization estimates by wavenumber domain analysis of magnetic and gravity maps (Muniruzzaman, M., Banks, R.J.), **97**, 103
A high-resolution spectral study of audiomagnetotelluric data and noise interactions (Tzanis, A., Beamish, D.), **97**, 557

Synthetic seismograms

Useful properties of the system matrix for a homogeneous anisotropic visco-elastic solid (Frazer, L.N., Fryer, G.J.), **97**, 173
Wave propagation in a vertical transversely isotropic medium: field experiment and model study (Kerner, C., Dyer, B., Worthington, M.), **97**, 295

System matrix

Useful properties of the system matrix for a homogeneous anisotropic visco-elastic solid (Frazer, L.N., Fryer, G.J.), **97**, 173

Tectonics

Seismicity and tectonics of the Red Sea and western Arabia (El-Isa, Z.H., Al Shanti, A.), **97**, 449

Tomography

Comparison of iterative back-projection inversion and generalized inversion without blocks: case studies in attenuation tomography (Ho-Liu, P., Montagner, J.-P., Kanamori, H.), **97**, 19
Tomographic reconstruction of 2-D vector fields: application to flow imaging (Norton, S.J.), **97**, 161
Two-dimensional seismic refraction tomography (White, D.J.), **97**, 223

Topography

Topography and geoid undulations caused by small-scale convection beneath continental lithosphere of variable elastic thickness (Marquart, G., Schmeling, H.), **97**, 511

TRM

Magnetic properties of natural goethite—II. TRM behaviour during thermal and alternating field demagnetization and low-temperature treatment (Dekkers, M.J.), **97**, 341

Volcanism

A model for internal dynamical processes on Mt Etna (Cosentino, M., Lombardo, G., Privitera, E.), **97**, 367
